

Moulded Flexible Racks

Materials

0.8-2.0 MOD

20° P.A.

STD : Duracon
overall length: 2000mm

Clips

Moulded Duracon racking can be used with various spur gears. The racking can be mounted directly onto the application surface by using an aluminium fixing rail which the racking slides into. Available in 2 metre lengths and can be easily cut to the application requirements. The aluminium fixing rail is sold in 1 metre lengths and a **FIXING KIT containing retaining clips and screws** is also available as listed below.
